Department of Artificial Intelligence and Data Science

VENCER 2K26

EVENT 4:

AI PROMPT BATTLE

No. of participants: 01–02

Registration fees: 200/-

Event description:

AI Prompt Battle is an innovative and interactive technical event where participants compete to create the most effective prompts for Artificial Intelligence tools. Participants are given the same problem statements and must design creative prompts to generate high-quality AI responses.

Rules and regulations:

- The event is open to all students from recognized institutions.
- Participation is allowed **individually or in a team of maximum 2 members**.
- All participants must complete **registration in advance**.
- Each team must bring their own **laptop or mobile device**.
- Participants must arrange their own **internet connection (Wi-Fi/Hotspot)**.
- Participants are allowed to use AI tools (ChatGPT, Gemini, etc.), but **prompts must be created during the event**.
- Participants must **show their prompt along with the AI-generated output** when submitting.
- Only **one final output per round** will be considered for evaluation.
- Copying prompts or ideas from other teams is **strictly prohibited**.
- Any form of **plagiarism, unfair practice, or misconduct** will lead to disqualification.
- Participants must strictly follow **time limits for each round**, and late submissions will not be accepted.
- The decision of the **judges will be final and binding**.

Student Coordinators:

3. **Mahesh Chandagadkar** – 9108427250
4. **Sneha Mirashi** – 8421647973
