EVENT 1:

AI SHARK TANK (IDEATHON)

No. of participants: 01–04

Registration fees: 200/-

Event description:

AI Shark Tank is an innovative and interactive ideathon where participants present creative ideas based on Artificial Intelligence and technology.Participants act like startup founders and pitch their ideas in front of judges (sharks). The event encourages students to showcase their creativity, problem-solving skills and understanding of AI concepts while presenting solutions to real-world problems.

Rules and regulations:

- The event is open to all students.
- Participation is allowed individually or in a team of maximum 4 members.
- Registration must be done in advance through the provided online link only.
- The idea must be original and related to AI or technology.
- Each team/participant must bring their own laptop and arrange their own internet (hotspot/Wi-Fi).
- One notepad and pen will be provided to each team.
- The event consists of 2 rounds:

– Ideation Round (45 minutes)

– Final Pitch (5 minutes presentation + 2 minutes Q&A)

- Participants must complete their presentation within the given time.
- Any form of plagiarism or cheating will lead to disqualification.
- Id cards of respective college are mandatory.
- The decision of judges will be final and binding.

Student Coordinators:

1. **Arzaan Khan** – 7338462010
2. **Aishwarya Byati** – 8660973548

EVENT 2:

PANDORA LOGIC WAR

Enter Pandora. Conquer Logic.

No. of participants: 01–04

Registration fees: 200/-

Event description:

Enter the **world of Pandora**, where logic, coding, and strategy decide who survived the war. Teams must solve puzzles, debug codes, and conquer the final battlefield to prove their supremacy.

Round 1 – Pandora Initiation:

Round 1A: 25 questions for 1 mark each **MCQ on paper** (25 marks) (25 minutes)

Round 1B: 5 questions for 5 marks each to be solved **on the computer.** (25 mark) (25 minutes)

Rule: 10% of the teams will be eliminated

Round 2 – Clan code clash:

Round 2: Participants debug 3 code snippets **on their computer**. (30 marks) (25 minutes)

Rule: 20% of the teams will be eliminated

Final Round – Pandora core mission on computer:

Final round: participants search **QR code** and scan to obtain the Password for their zip file which will be available on our website.

1st zip file **(password. Zip)** consists set of passwords in which one will be correct

Password for the 2nd zip file.2nd zip file **(statement. Zip)** consists of the problem statement of final round.

First 10 teams who will crack the password and report to coordinator Will be allowed to play the final round. Development according to the given problem Statement.

Note: 1. 2. Final round will be held on 10/4/2026-day 1
Winners will be selected based on the score obtained in all the rounds Jurry decision will be final.

Rules and regulations:

1. Team size must be **1–4 members**.
2. Each team must bring **a minimum of 2 laptops**.
3. Teams must arrange **their own internet connection**.
4. Participants must **strictly follow event timings**.
5. Any **malpractice or unfair means will lead to disqualification**.
6. **The judge's decision will be final**.

Student Coordinators:

1. **Shivalingsarj Desai** - 9513804776
2. **Nivedita Akkimaradi** - 8296663125

EVENT 3:

PROJECT EXPO (TechXhibit)

No. of participants: 01–04

Registration fees: 200/-

Event description:

TechXhibit : Project Expo is a technical event where students present their innovative projects and ideas to a panel of judges. Participants showcase their technical skills, creativity, and problem-solving abilities through their project presentations.

Projects will be evaluated based on innovation, implementation, and presentation. The event provides a platform for students to gain recognition and enhance their practical knowledge.

Rules and regulations:

- Participants must take part in a team.
- Each team should have a minimum of 2 members and a maximum of 4 members.
- Each team must present one unique project.
- Projects can be from any technical domain such as AI-ML, IoT, Software Development, Robotics, etc.
- Participants must bring their own laptop, hardware, and required materials.
- Each team will be given 15 minutes to present their project to the judges, followed by a short Q&A session.
- Every team must prepare a presentation (PPT), and live demonstration.

Student Coordinators:

1. **NIKITA LADU DESAI - 8296730926**
2. **KHUSHIYABEGAM HANAGI - 8867284486**

EVENT 4:

AI PROMPT BATTLE

No. of participants: 01–02

Registration fees: 200/-

Event description:

AI Prompt Battle is an innovative and interactive technical event where participants compete to create the most effective prompts for Artificial Intelligence tools. Participants are given the same problem statements and must design creative prompts to generate high-quality AI responses.

Rules and regulations:

- The event is open to all students from recognized institutions.
- Participation is allowed **individually or in a team of maximum 2 members**.
- All participants must complete **registration in advance**.
- Each team must bring their own **laptop or mobile device**.
- Participants must arrange their own **internet connection (Wi-Fi/Hotspot)**.
- Participants are allowed to use AI tools (ChatGPT, Gemini, etc.), but **prompts must be created during the event**.
- Participants must **show their prompt along with the AI-generated output** when submitting.
- Only **one final output per round** will be considered for evaluation.
- Copying prompts or ideas from other teams is **strictly prohibited**.
- Any form of **plagiarism, unfair practice, or misconduct** will lead to disqualification.
- Participants must strictly follow **time limits for each round**, and late submissions will not be accepted.
- The decision of the **judges will be final and binding**.

Student Coordinators:

3. **Mahesh Chandagadkar** – 9108427250
4. **Sneha Mirashi** – 8421647973
